

CAFÉ BAR MENU

When Angela and I set up The Coffee Kitchen, we tried to create a place that we would like to go to. Somewhere that served good coffee, had interesting food and a massively warm welcome.

In setting up the Café-Bar, we're trying to do the same again. We love the warmth and friendliness of continental café-bars - places that you go to to hang out with friends, to drink excellent beer or wine and to have a good time. If you just want to sit and have a coffee, that's fine. We just want you to enjoy yourselves in good company.

Couple of points:-

Take it easy and drink responsibly – Belgian Beer can be very strong.

If you look 25 or under, we will ask for ID – please don't be offended, take it as a compliment ☺

Enjoy the evening
